

Conference

Chemical Reactions in Foods V

Prague, September 29–October 1, 2004

ORGANIZED BY

Division of Food and Agricultural Chemistry,
Czech Chemical Society, Prague

Department of Food Chemistry and Analysis,
Institute of Chemical Technology in Prague

Food Research Institute Prague

Food Chemistry Division,
Federation of European Chemical Societies (FECS)

The publication of Proceedings was supported by Ministry of Agriculture
of the Czech Republic

Conference

Chemical Reactions in Foods V

Prague, September 29–October 1, 2004

SCIENTIFIC COMMITTEE

J. DAVÍDEK, Czech Republic (Chairman)

R. AMADÒ, Switzerland

A. ARNOLDI, Italy

R. VAN DEN BERG, The Netherlands

M. HOLASOVÁ, Czech Republic

R. FENWICK, Great Britain

V. PIIRONEN, Finland

L. SIMON-SARKADI, Hungary

J. VELÍŠEK, Czech Republic

ORGANISING COMMITTEE

K. CEJPEK

J. DAVÍDEK

M. DOLEŽAL

J. DOSTÁLOVÁ

V. FIEDLEROVÁ

J. GRUS

M. HOLASOVÁ

F. KVASNIČKA

E. MAŠKOVÁ

Z. PANOVSÁ

F. PUDIL

J. ŠTĚTINA

J. VELÍŠEK

M. VOLDŘICH

CONTENT

CONTENT	I
AUTHORS INDEX	VIII
SUBJECT INDEX	XIII

ORAL PRESENTATIONS

A. STUDER, I. BLANK, R. H. STADLER: Thermal Processing Contaminants in Foodstuffs and Potential Strategies of Control	1
F. MESTDAGH, B. DE MEULENAER, C. VAN PETEGHEM, C. CROMPHOUT, O. THAS: Towards a Better Understanding in Acrylamide Formation, Degradation and Reduction in Model Systems (and Foodstuffs)	11
T. DE WILDE, B. DE MEULENAER, F. MESTDAGH, R. VERHÉ, Y. GOVAERT, S. FRASELLE, J. M. DEGROODT, S. VANDEBURIE, K. DEMEULEMEESTER, A. CALUS, W. OOGHE, C. VAN PETEGHEM: Acrylamide Formation during Frying of Potatoes: Thorough Investigation on the Influence of Crop and Process Variables	15
M. VASS, T. M. AMREIN, B. SCHÖNBÄCHLER, F. ESCHER, R. AMADÒ: Ways to Reduce the Acrylamide Formation in Cracker Products	19
K. BAGDONAITÉ, M. MURKOVIC: Factors Affecting the Formation of Acrylamide in Coffee	22
C. M. BREITLING-UTZMANN, H. HRENN, N. U. HAASE, G. M. UNBEHEND: Influence of Dough Ingredients on 3-MCPD Formation in Toast	25
J. HAJŠLOVÁ, V. SCHULZOVÁ, P. BOTEK, J. LOJZA: Natural Toxins in Food Crops and their Changes during Processing	29
R. VAN DEN BERG: Sterilization of Food Products with High Pressure Processing: Overview of Developments in Technology, Microbiology and Product Quality	35
N. WOLFF, U. COGAN, H. ZUCKERMAN, N. KARIN, Y. LEVY, Y. E. KRASIK, J. FELSTEINER, R. REIFEN, S. YANNAI: Decrease of the Allergenic Activity of Foods by Shock Waves	36
N. AGERBIRK: The Mustard Oil Bomb: Multiple Biochemical Mechanisms of Detoxification	40
J. DOSTÁLOVÁ, P. KADLEC, J. CULKOVÁ, A. HINKOVÁ, M. HOUŠKA, J. STROHLAM: The Changes of α -galactosides during Germination and High Pressure Treatment of Chick-Pea Seeds	41
J. PREKOP, R. ČERVENKOVÁ, E. BARTOŠOVÁ, Z. ŠPIČKOVÁ, J. ŠMIDRKAL, V. FILIP, M. PLOCKOVÁ: Acylglycosides as Future Food Preservatives	45
P. SCHIEBERLE: Recent Advances in the Understanding of Thermal Flavour Generation	49
T. HOFMANN: Analysis and Molecular Diversity of Thermally Generated Taste Compounds	49
I. BLANK, T. DAVIDEK, PH. POLLIEU, S. DEVAUD: Flavour and Vinylogous Compounds Generated by Maillard-Type Reactions	50
J. VELÍŠEK, R. KUBEC: S-Substituted Cysteine Derivatives in Production of Flavour and Colour	54
K. CEJPEK, L. JAROLÍMOVÁ, J. VELÍŠEK: Antioxidation Capacity of Maillard Systems with Carbonyl Products of Sugar Fragmentation	60

M. BUNZEL, J. RALPH, H. STEINHART: Phenolic Compounds as Cross-Links of Plant Derived Polysaccharides	64
I. BIRLOUEZ-ARAGON, P. A. MAS, L. AIT AMEUR, N. LOCQUET, E. DE ST LOUVENT, M. ZUDE: Fluorescence Fingerprints as a Rapid Predictor of the Nutritional Quality of Processed and Stored Foods	68
A. ARNOLDI: Consequences of the Maillard Reaction during Coffee Roasting	72
T. G. TOSCHI: Oxidative Resistance of Virgin Olive Oil and Extraction Processes	72
C. KELLERSMANN, W. FRANCKE, H. STEINHART: Synthesis of (Z,Z)-Octadeca-10,12-dienoic Acid	73
V. FILIP, M. ZÁRUBOVÁ, I. PISKA, J. ŠMIDRKAL: Fat Blends on the Base of Structural Triglycerides	76
J. POKORNÝ, Š. SCHMIDT, H. T. T. NGUYEN: Functionality Changes of Natural Antioxidants during Food Processing and Storage	80
S. VUORELA, A. S. MEYER, M. HEINONEN: Impact of Isolation Method on the Antioxidant Activity of Rapeseed Meal Phenolics	84
H. J. WICHERS: Polyphenol Oxidases and Peroxidases: a Pivotal Role in Food Quality	85

POSTER PRESENTATIONS

A – SACCHARIDES AND MAILLARD REACTION

F. BACCHINI, A. D'AGOSTINA, G. BOSCHIN, A. ARNOLDI: Chemical and Technological Characterisation of Melanoidins from Espresso Coffee	89
A. BÖHM, I. KAISER, A. TREBSTEIN, T. HENLE: Heat-Induced Degradation of Inulin	90
E. MAVRIC, T. HENLE: A New Pathway of Lactose Degradation and Arginine Derivatization in Milk	93
A. FÖRSTER, Y. KÜHNE, T. HENLE: Dietary Intake and Urinary Excretion of Maillard Reaction Products (MRPs)	96
L. AIT AMEUR, M. ZUDE, G. TRYSTRAM, I. BIRLOUEZ-ARAGON: Hydroxymethylfurfural: An Indicative Parameter of Heat Damage in Cereal Products	99
L. JAROLÍMOVÁ, J. RYSOVÁ, K. CEJPEK, J. VELÍŠEK: Factors Affecting the Formation of Reducing Compounds from Biacetyl	102
S. T. SEIFERT, R. KRAUSE, K. GLOE, T. HENLE: Copper(II)-Complexation by Non Enzymatically Glycated Peptides	106
R. KUBEC, M. HRBÁČOVÁ, R. A. MUSAH, J. VELÍŠEK: <i>Allium</i> Discoloration: The Nature of Onion Pinking and Garlic Greening	109
J. PARKÁNYIOVÁ, E. B. HUTAPEA, L. PARKÁNYIOVÁ, M. MIYAHARA, H. SAKURAI, J. POKORNÝ: Browning Reactions between Oxidized Vegetable Oils and Amino Acids	113
C. DELGADO-ANDRADE, I. SEIQUER, M. P. NAVARRO: Maillard Reaction Products from Glucose-Methionine Mixtures Affect Iron Utilization in Rats	116
W. ENGEL, P. SCHIEBERLE: On the Significant Influence of Water on the Formation Mechanisms of 5-Acetyl-3,4-dihydro-2H-1,4-thiazine	120

B – LIPIDS AND OXIDATION

M. ZÁRUBOVÁ, V. FILIP, J. ŠMIDRKAL, T. KŮTEK, I. PISKA: The Separation of Triacylglycerols Using Unpolar and Medium Polar Capillary Columns	123
P. A. MAS, D. J.-R. BOUVERESSE, I. BIRLOUEZ-ARAGON: Fluorescence Spectroscopy for Monitoring Rapeseed Oil Upon Heating	127
I. NAGAMINE, T. YANO, K. ENDOH, T. YAMAKI, T. MORIMURA, M. MIYAHARA, H. T. T. NGUYEN, J. POKORNÝ, H. SAKURAI: Prostaglandin E ₂ -Dependent Activation of Src-Stat3 Signal Pathway in Human Lung Adenocarcinoma Cells	130
H. SALMINEN, R. KIVIKARI, M. HEINONEN: Protein-Lipid Interactions during Oxidation of Liposomes	133
A. ZAINUDDIN, J. PARKÁNYIOVÁ, L. PARKÁNYIOVÁ, J. POKORNÝ, H. SAKURAI: Comparison of Oxidative Resistance of Traditional and High-Oleic Peanut Oils in Emulsions	136
I. POKORNÁ, V. FILIP, J. ŠMIDRKAL: Lipid Oxidation in Margarine Emulsions	140
S. KEMMO, V. OLLILAINEN, A.-M. LAMPI, V. PIIRONEN: Determination of Stigmasterol Hydroperoxides Using High-Performance Liquid Chromatography-Mass Spectrometry with Atmospheric Pressure Chemical Ionization	144
R. CHEIKHOUSMAN, M. ZUDE, D. J.-R. BOUVERESSE, D. N. RUTLEDGE, I. BIRLOUEZ-ARAGON: Fluorescence Spectroscopy for Monitoring Extra Virgin Olive Oil Deterioration Upon Heating	147
G. GARCÍA-LLATAS, M. J. LAGARDA, R. FARRÉ, P. ABELLÁN, F. ROMERO: Optimisation of a Headspace Solid Phase Microextraction (HS-SPME) Method to Determine Hexanal in Baby Foods	151
A. VILLIÈRE, I. BRONNEC, M. L. ANDERSEN, L. H. SKIBSTED, C. GENOT: As Compared to Bovine Serum Albumin, Sodium Caseinate Either Reduces or Increases the Oxidative Stability of Oil-in-Water Emulsions According to the Location and Availability of Iron	152
V. RAMPON, A. VILLIÈRE, D. J. MCCLEMENTS, C. GENOT: Fluorescence of Oxidizing Oil-in-Water Emulsions	153
L. LI YUET HEE, M. DALGALARONDO, H. ROGNIAUX, M. VIAU, C. GENOT: Structural and Chemical Modifications of β -Lactoglobulin Induced by Aldehydes	154

C – PHYTOCHEMICALS AND ANTIOXIDANTS

I. NAGAMINE, H. SAKURAI, H. T. T. NGUYEN, M. MIYAHARA, J. PARKÁNYIOVÁ, Z. RÉBLOVÁ, J. POKORNÝ: Antioxidant Activity of Acerola Extracts	155
I. NAGAMINE, M. FUJITA, I. HONGO, H. T. T. NGUYEN, M. MIYAHARA, J. PARKÁNYIOVÁ, J. POKORNÝ, J. DOSTÁLOVÁ, H. SAKURAI: Hepatoprotective Effects of Acerola Cherry Extract Powder Against D-Galactosamine-Induced Liver Injury in Rats and its Bioactive Compounds	159
M. DUCHÁČKOVÁ, J. SCHOVÁNKOVÁ, H. OPATOVÁ: Phenolic Compounds of Apples in the Relation to the Postharvest Diseases	163
I. KOLOUCHOVÁ, P. ZÁMOSTNÝ, Z. BĚLOHLAV, K. MELZOCH, L. SIŘÍŠŤOVÁ: Red Wine as Resveratrol Protective System	166
W. WICZKOWSKI, J. ROMASZKO, A. BUCIŃSKI, H. ZIELIŃSKI, D. SZAWARA-NOWAK, J. HONKE, H. KOZŁOWSKA, M. K. PISKULA: Transformation of Quercetin Glucosides in Onion and Its Impact on Quercetin Bioavailability in Humans	169
K. NEMETH, M. K. PISKULA, M. TAKACSOVA: Effect of Boiling on Yellow Onion Quercetin (Glucosides)	170

V. PROKORÁTOVÁ, F. KVASNIČKA, V. BEKOVÁ: Determination of Phytic Acid by Capillary Isotachopheresis Combined with Capillary Zone Electrophoresis	173
A. TROSYŃSKA, G. LAMPARSKI, A. KOSIŃSKA: The Sensory Quality of Sprouts Obtained from the Selected Species of Legume Seeds	174
M. VESELÁ: Amaranth Seed Extraction by Propan-2-ol after Enzymatic Treatment	177
K. MIŃKOWSKI: Efficiency of Activity Antioxidants in Flaxseed Oil and Borago Oil and their Triacylglycerols	179
I. REVILLA, A. M. VIVAR-QUINTANA: Changes in Quality and Antioxidant Properties of Dry Sausages Produced by Type and Dosis of Paprika	183
M. SUHAJ, J. RÁCOVÁ: Study of Irradiated Black Pepper Antioxidant Activity Changes	187
M. DAGLIA, A. PAPETTI, G. GAZZANI: Green and Roasted Coffee Antiradical Activity Stability in Chemical Systems	191
P. KOŠULIČ, J. POKORNÝ, Z. PANOVSÁ: Influence of Phenolic Compounds on Sensory Parameters of Tea Infusions	195
M. VÍTKOVÁ, Z. MACKOVÁ, R. KOBLOVSKÁ, O. LAPČÍK: Enzyme-Linked Immunosorbent Assay for the Determination of Isoflavones in Alimentary Important Plants	199
T. MATSUBARA, K. TODOROKI, T. YAMAKI, K. OOKUMA, H. T. T. NGUYEN, M. MIYAHARA, H. KUMAGAI, J. POKORNÝ, H. SAKURAI: Protective Effects of Components in Peanut Skins against d-Galactosamine-Induced Rat Hepatic Injury	203
R. AMAROWICZ, A. TROSYŃSKA: Antioxidant and Antiradical Activity of Extracts of Phenolic Compounds from Red Bean	206
I. LÓPEZ-GALILEA, S. ANDUEZA, M. P. DE PEÑA, C. CID: Antioxidant and Pro-Oxidant Activity of Coffee as Affected by Torrefacto Roast	209
C. DELGADO-ANDRADE, F. J. MORALES: Peroxyl Radical Scavenging Activity of Soluble High Molecular Weight Fraction from Coffee Brews	212
S. SEKRETÁR, Š. SCHMIDT, M. VAJDÁK, L. ZAHRADNÍKOVÁ, J. ANNUS: Antioxidative and Antimicrobial Effects of Some Natural Extracts in Lard	215
P. BOTEK, V. SCHULZOVÁ, R. PEROUTKA, J. HAJŠLOVÁ: Changes of Furanocoumarins Content in Vegetables during Storage	219
J. LOJZA, V. SCHULZOVÁ, J. HAJŠLOVÁ: Changes of Phytoestrogens Daidzein, Genistein and Their Glycosides Daidzin and Genistin and Coumestrol during Processing of Soyabeans	223

D – FOOD ADDITIVES AND CONTAMINANTS

R. TYLINGO, M. SADOWSKA: The Effect of Chemical Modifications on Rheological Properties of Collagen from of Baltic Cod (<i>Gadus morhua</i>) Skin Stabilized by Interaction with κ -carrageenan	227
P. BLAFKOVÁ, A. SYNITSYA, J. ČOPÍKOVÁ: Chitin-Glucan Complex from <i>Agaricus blazei</i> , a Potential Raw Material for Production of Food Additives	231
L. SIHELNIKOVÁ, A. SYNITSYA, J. ČOPÍKOVÁ: Amino-Dealkoxylation of HM Citruc Pectin with <i>n</i> -Alkylamines: A Kinetic Study	235
E. BARTOŠOVÁ, R. ČERVENKOVÁ, Z. ŠPIČKOVÁ, J. ŠMIDRKAL, V. FILIP, M. PLOCKOVÁ: Monoacylglycerols as Food Additives with Antimicrobial Properties	238

M. BLAŽKOVÁ, L. KARAMONOVÁ, P. RAUCH, G. M. WYATT: Enzyme-Linked Immunosorbent Assay for General and Specific Detection of <i>Listeria</i> spp. and <i>monocytogenes</i> in Dairy Products	242
I. FABÍKOVÁ, M. VOLDŘICH, R. ŠEVČÍK, P. HÖNIGOVÁ, M. ČEŘOVSKÝ: Guaiacol Formation in Apple Juice, Effect of Selected Additives on <i>Alicyclobacillus</i> Growth	246
K. SKOG, R. MAUL, M. NYMAN: Dietary Fibres from Brassica Vegetables Bind Heterocyclic Amines <i>in vitro</i> .	250
Z. CIESAROVÁ, V. BALASOVÁ, E. KISS, E. KOLEK, P. ŠIMKO, M. KOVÁČ: Comparison of Two Methods for Acrylamide Determination and Dietary Intake of Acrylamide from Potato Crisps in Slovakia	251
C. G. HAMLET, P. A. SADD: Effects of Yeast Stress and Organic Acids on Chloropropanols Formation in Cereal Products	255
C. G. HAMLET, P. A. SADD: Chloropropanols and their Esters in Cereal Products	259
M. DOLEŽAL, P. CALTA, J. VELÍŠEK: Formation and Decomposition of 3-Chloropropane-1,2-Diol in Model Systems	263
V. DIVINOVÁ, B. SVEJKOVSKÁ, O. NOVOTNÝ, J. VELÍŠEK: Survey of 3-Chloropropane-1,2-Diol and its Precursors in Foods in the Czech Republic	267
I. POUSTKOVÁ, J. DOBIÁŠ, J. POUSTKA, M. VOLDŘICH: Investigation of Bisphenol A Diglycidyl Ether, Bisphenol F Diglycidyl Ether and their Hydroxy and Chlorohydroxy Derivatives Stability in Water-Based Food Simulants	272
B. SKLÁRŠOVÁ, P. ŠIMKO, P. ŠIMON, E. BELAJOVÁ: Characterisation of Physicochemical Interactions between Benzo(a)Pyrene Contained in Vegetable Oil and Polyethylene Terephthalate	276
B. MIČKOVÁ, P. RAUCH, A. MONTOYA, E. FERRI, F. FINI, S. GIROTTI: The Determination of <i>N</i> -Methylcarbamate Pesticides Using Enzyme Immunoassays with Chemiluminescent Detection	280
L. DUNOVSKÁ, J. HAJŠLOVÁ, T. ČAJKA, K. HOLADOVÁ, K. HÁJKOVÁ: Changes of Acrylamide Levels in Food Products during Technological Processing	283
L. SIMON-SARKADI, E. SZŐKE, A. KEREKES: Determination of Free Amino Acid and Biogenic Amine Contents of Hungarian Sparkling Wines	287
C. G. HAMLET, S. M. JAYARATNE, P. A. SADD: Rapid, Sensitive and Selective Analysis of Acrylamide in Cereal Products Using Bromination and GC/MS/MS	290

E – FOOD PROCESSING AND TECHNOLOGY

O. MENÉNDEZ, H. RAWEL, U. SCHWARZENBOLZ, T. HENLE: Effect of High Hydrostatic Pressure on the Secondary Structure of Microbial Transglutaminase	295
N. SCHENKOVÁ, M. ŠIKULOVÁ, J. JELENÍKOVÁ, P. PIPEK, M. MAREK, M. VOLDŘICH: Influence of High Pressure and Papain Treatment on Some Aspects of Beef Meat Quality	299
O. KREJČOVÁ, E. ŠVIRÁKOVÁ, J. DOBIÁŠ, M. PLOCKOVÁ: Inhibition of Lactic Acid Bacteria and <i>Bacillus</i> sp. Growth in Cheese and Meat Products due to Effect of Polymer Packaging Film with Incorporated Nisin	303
S. PTASZNIK: The Differences of the Structure of Triacylglycerols as a Result of Enzymatic Interesterification of Fat Mixtures With the Omega-3 Family Polyenic Fatty Acids	306
E. VÍTOVÁ, J. ZEMANOVÁ, Š. BEZDĚKOVÁ, L. BABÁK, B. LOUPANCOVÁ, P. BŘEZINA: Changes of Free Fatty Acids during Ripening of Niva Cheese	310

J. ZEMANOVÁ, E. VÍTOVÁ, L. HADRA, M. FIŠERA: Monitoring of Oligopeptides from Blue-veined Cheese during Ripening	314
D. GABROVSKÁ, V. FIEDLEROVÁ, M. HOLASOVÁ, E. MAŠKOVÁ, J. OUHRABKOVÁ, J. RYSOVÁ, R. WINTEROVÁ, A. MICHALOVÁ: Nutritional Changes of Common Oat (<i>Avena sativa</i> L.) and Naked Oat (<i>Avena nuda</i> L.) during Germination	317
M. HRUŠKAR, M. KRPAŇ, K. MARKOVIĆ, D. MATKOVIĆ, N. VAHČIĆ: Changes in Potato after Different Thermal Processes	321
J. SCHOVÁNKOVÁ, E. COCCI, H. OPATOVÁ, M. DALLA ROSA: Enzymatic Changes in Minimally Processed Apples	325
A. TRILČOVÁ, J. ČOPÍKOVÁ, M. A. COIMBRA, A. BARROS, L. EGERT, A. SYNITSYA, H. KRÍSTKOVÁ: Application of NIR Analysis to Verify Cocoa Powder Authenticity	329
M. A. LURUEÑA-MARTÍNEZ, I. REVILLA, A. M. VIVAR-QUINTANA: New Formulations for Low-Fat Frankfurters and its Effect on Product Quality	333
M. VILA, M. P. DE PEÑA, C. CID: FFA Evolution during Storage of Ground Roasted Coffee	338
J. SÁDECKÁ, E. KOLEK, Z. SALKOVÁ, J. PETRÍKOVÁ, M. KOVÁČ: Effect of Gamma-Irradiation on Microbial Decontamination and Organoleptic Quality of Black Pepper (<i>Piper nigrum</i> L.)	342
Š. SCHMIDT, M. VAJDÁK, S. SEKRETÁR, V. KOMAN: Effect of Some Refining Steps on Rapeseed Oil Triacylglycerol Structures	346
V. SOUKUPOVÁ, H. ČÍŽKOVÁ, M. VOLDŘICH: Evaluation of Ketchup Authenticity – Chemical Changes of Markers during Production and Distribution	349

LAST MINUTE

R. GATERMANN, K. HOENICKE, M. MANDIX: Formation of Semicarbazide (SEM) from Natural Compounds in Food by Heat Treatment	353
K. HOENICKE, R. GATERMANN: Stability of Acrylamide in Food during Storage	355
K. HOENICKE, H. FRITZ, R. GATERMANN, S. WEIDEMANN: Analysis of Furan in Different Foodstuffs Using Gas Chromatography Mass Spectrometry	357
